## AFFIDAVIT OF COMPLIANCE WITH ARTICLE 7 OF THE TECHNICAL GUIDANCE MANUAL

(Overhead Plumbing & Footing Drain Discharge)

Name	of	Proi	ect:

This affidavit is made to induce the Metropolitan Water Reclamation District to issue a watershed management permit for the project identified above to the Owner/Developer herein without first requiring the municipality or unit of local government which is the Permittee herein to promulgate those ordinances required in Article 7 of the Technical Guidance Manual for the administration of the Watershed Management Ordinance.

The undersigned, being first duly sworn on oath, deposes and states as follows:

- 1. Affiant is the Co-Permittee for the project identified above, is aware of the Metropolitan Water Reclamation District's Technical Guidance Manual (TGM) for the administration of the Watershed Management Ordinance, and has read and understands same.
- 2. Affiant has specifically read and understands Article 7 (Overhead Plumbing and Footing Drain Discharge) of the TGM relative to the mandatory requirement of overhead plumbing and the manner of discharge from footing drains.
- 3. The project identified above complies with all the provisions of the TGM which is incorporated herein by reference.
- 4. If the project identified above does not contemplate or reflect the construction of habitable structures, any future habitable structures, if and when built and connected to the sewerage system constructed under the project identified above, will comply with all the provisions of the TGM and specifically with Article 7 of the TGM.
- 5. The plumbing work to be performed in any habitable structures served or to be served under above watershed management permit application conforms to Article 7 of the TGM.
- 6. Upon completion of any habitable structures served or to be served by the sewer system contemplated under the project above and prior to the occupancy or use of said structure, the Affiant will submit to the Metropolitan Water Reclamation District an affidavit that the completed construction of the above project complies with the provisions of the TGM and specifically the requirements of Article 7 of the TGM.
