Chicago, IL 60611

RE: Case No. WMO-VP-21-02 / 1301-1303 E. Algonquin Rd. Schaumburg, IL a/k/a 90 North District West Park /

Ms. Morakalis:

Per our meeting on October 29, 2021 with Maureen Durkin and staff from MWRD's Local Sewer Systems Section, Engineering Department, the Village of Schaumburg has decided to formally withdraw our Petition for Variation, Case No WMO-VP-21-02 for the 90 North District West Park.

In lieu of pursuing the variation request, the Village has instead submitted a letter to the District in response to the open public comment period for the proposed amendment to the WMO. It is the Village's intent for our letter, and comments contained therein, to be entered into the public record and responded to by the District. We hope that the District's board will come to understand the issues that the Village has raised in our letter and take these into consideration for future amendments.

We appreciate the District's continued willingness to listen to our concerns as well as the effort your staff has put into researching/reviewing the overall Veridian Development and 90 North District Park project. Should you have any questions regarding this letter, please feel free to contact Todd Wenger, Landscape & Design Planner at twenger@schaumburg.com (847.923.3866).

Sincerely,

VILLAGE OF SCHAUMBURG
